## **Colorliner™ Felt Holder Assembly**

In response to customer request we have developed an improved Goss™ Colorliner bearer wiper block assembly. Improvements include: aluminum body for increased strength, high-temperature nylon wiper felt holders to prevent heat warpage and stainless steel felt holder inserts to eliminate thread damage. The wiper felt holders can also be purchased separately in pairs (both with provisions for oiler), with springs. We stock the bearer wiper felts for the Goss™ Colorliner and all other Goss™ presses. If you have any questions about these or any other pressroom related parts, please give us a call.

<b>Quantity</b>	<b>Part Number</b>	<b>Description</b>	<b>Price Per Part</b>
1+	PPP-C127635-2	Colorliner Wiper Felt Holder Assembly	\$175.00 Each
