Goss™ Headliner Offset Change Over Screw Assembly

We are now manufacturing the change over screw assembly for the Goss™ Headliner Offset. It is totally CNC machined, using no castings. If you have already switched to our Change Over Screw Assemblies, we have the screw and all of the individual replacement parts that can be purchased separately. If the motor is your problem, we also have those on the shelf. If you would like additional information, please give us a call.

Part Number	Description	Price Per Assembly
PPP-F16803	Change Over Screw Assembly	\$800.00 Each

Note: Prices Subject to Change Without Notice
