Colorliner Cable Guide

If you are tired of replacing the molded plastic cable guides in your press due to breakage, then just replace them with the CNC machined aluminum cable guides we manufacture in our state of the art machine shop. At the request of many of our customers, we are now making and stocking these cable guides so that they can ship to you immediately. You will definitely save money by not spending your valuable maintenance time constantly replacing the plastic ones. If you have any questions about these or any other press-room related item, please give us a call.

Quantity	Part Number	Description	Price Per Part
1+	PPP-E20158-3	Colorliner Cable Guide	\$12.00 Each

Note: Prices Subject to Change Without Notice
